SEVERAL FABULOUS THINGS YOU CAN MAKE FOR VALENTINE'S DAY

Fun and Easy Felt Necklaces

A quick and easy craft project for kids of all ages!

What you'll need

- **scissors**
- **pieces of felt** in a variety of colors
(we used 9 x 12 inch sheets of basic felt)
- **yarn**
- **tacky glue**

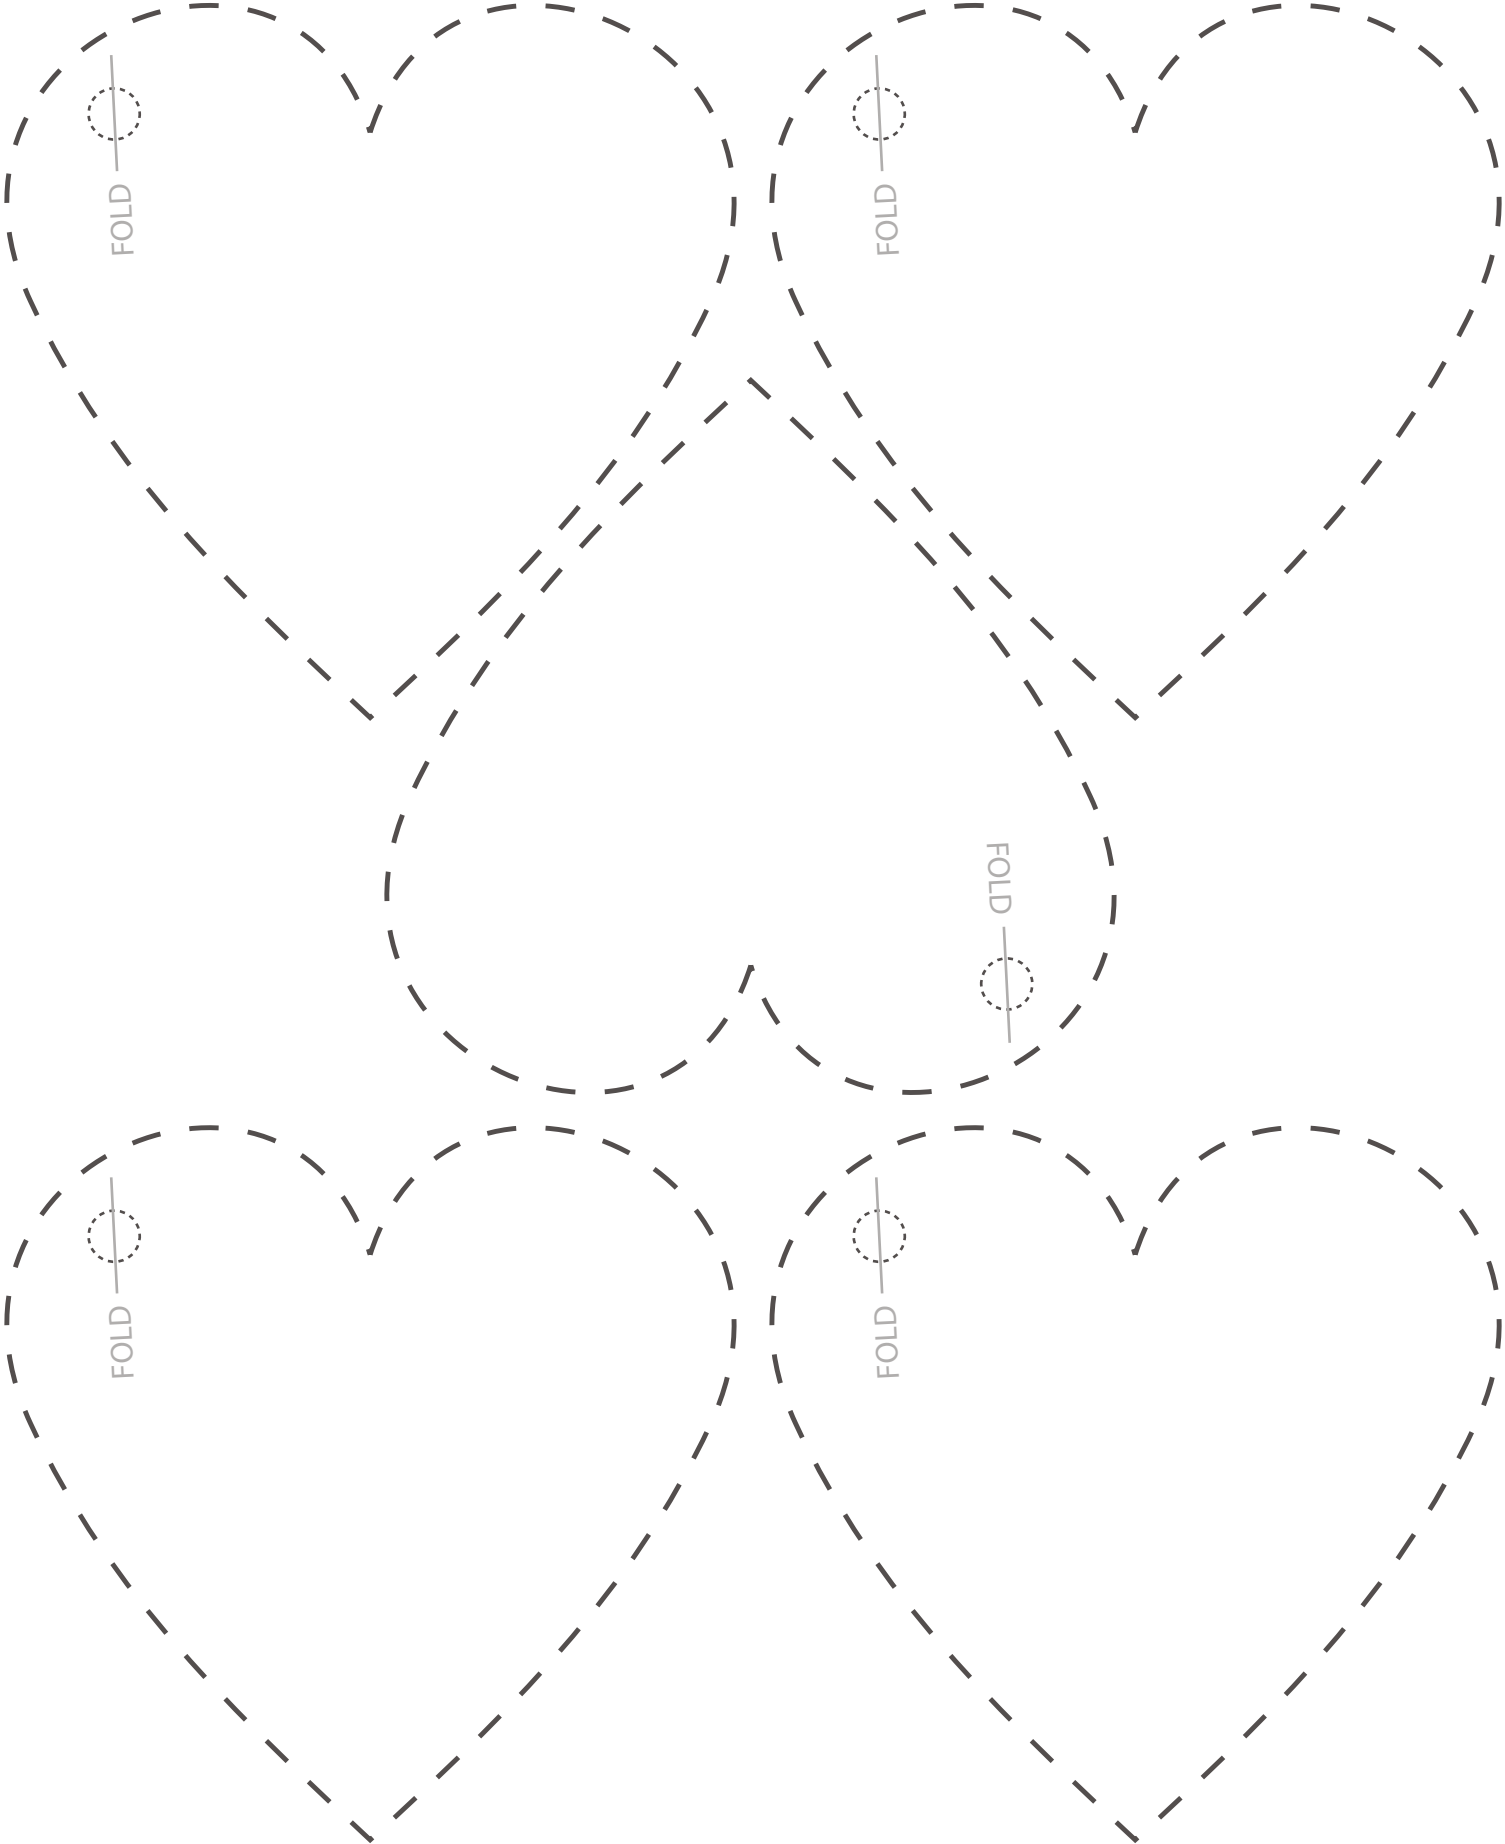

What to do

1. **Print out** the shapes on the following pages.
2. **Using pins or a stapler, attach the felt** to the page containing the shape you want to cut out (so that it won't slip when you cut it).
3. **Cut out the shapes** you want to use. (If you want to make a more complex shape, **glue** a smaller shape onto a larger one. **Allow the glue to dry** before proceeding.)
4. To create a hole for the yarn to go through, **fold** at the line indicated on the pattern and carefully **cut** a semi-circle
5. **Cut yarn** to the length you want the necklace to be (approx 18-24 inches). Leave enough room to slip over the wearer's head.
6. **Thread** the yarn through the hole and **tie** ends to secure.
7. **Give** the necklace to your Valentine!
